**Information pertaining to Air Permits (not published in the NJDEP Bulletin)  
obtained from Data Miner – 10/01/17 05:56 PM**

**Facility Name:** TRANSCO COMPRESSOR STATION 206

**Street Address:** RT 518

**City:** Franklin Twp

**State / Zip:** NJ 08853

**PI Number:** 36396

**Activity No:** GEN 170001

This is a General Permit, a pre-approved preconstruction permit which applies to a specific class of air pollution emission sources. By issuing a General Permit, the DEP indicates that it approves the activities authorized by the General Permit, provided that the owner or operator of the source registers with the Department and meets the requirements of the General Permit. The types of emission sources that are eligible to obtain a General Permit are listed at New Jersey regulation, N.J.A.C. 7:27-8.8. Additional general information about air permitting is available at <http://www.nj.gov/dep/aqpp/>. For specific information about this permit, use the contact information below.

**Document Type:** Permit

**Type Status:** Approved

**NJDEP Contact Information:** Air Contact (609) 633-2829

**Document Creation Date:** 05/26/2017

**Applicant's Description of Air Permitting Activity:** Description not available

**Activity No:** PCP 170001

This is a request for a permit from DEP to construct equipment and emit air contaminants from specific emission sources. The types of emission sources required to obtain this preconstruction permit are defined in New Jersey regulation, N.J.A.C. 7:27-8.2. Additional general information about air permitting is available at <http://www.nj.gov/dep/aqpp/>. For specific information about this permit, use the contact information below.

**Document Type:** Permit

**Type Status:** Approved

**NJDEP Contact Information:** Air Contact (609) 633-2829

**Document Creation Date:** 01/06/2017

**Applicant's Description of Air Permitting Activity:** Transcontinental Gas Pipe Line, LLC (Transco) hereby submits this preconstruction permit application in accordance with N.J.A.C. 7:27-8 for its proposed natural gas compressor station (Station 206) in Franklin Township, Somerset County, New Jersey. This permit application is for the installation of two (2) natural gas-fired Solar Mars 100 simplecycle combustion turbines. Each turbine will be equipped with state of the art SoLoNOx dry low NOx combustion technology, an ureabased selective catalytic reduction (SCR) system to reduce Nitrogen Oxides (NOx), and an oxidation catalyst system to reduce Carbon Monoxide (CO) and Hazardous Air Pollutant (HAP) emissions. Please see the cover letter for further details.
