or go to [www.usa.gov/elected-officials](http://www.usa.gov/elected-officials) or [www.mjleg.state.nj.us/](http://www.mjleg.state.nj.us/)

### MESSAGE:

I am a resident of (name of town), and I am calling to notify you of my opposition to the Northeast Supply Enhancement Project of Williams-Transco. The proposed compressor station in Franklin Township is a concern due to toxic emissions that will harm our health, safety, and well-being. The pipeline under Raritan Bay threatens the fishing and recreational industry as well as marine wildlife and habitats. Additionally, I do not want NJ to change from the Garden State to the Pipeline State. Please make sure that NJDEP is diligent in their review of all permit applications and does everything to deny permits. Thank you for considering my concerns. (state your name + address)

---
